EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Philip J. Hoffmann on 12/09/04. The application has been amended as follows:

In the claims:

Claims 16-19 are cancelled.

REASONS FOR ALLOWANCE

2. Claims 1-15 are allowed. The following is a statement of the examiner's reasons for allowance. The present application relates to a technology to reduce spreading or spot positioning error of a beam caused by defocusing of the beam. Regarding claims 1, 9, 14 and 15, the prior art alone or in combination fails to disclose or suggest that the reference axis corresponding to a turning point of an N-th order approximating curve of refractive index distribution $\Delta n(x)$ of the lens is displaced from a center of a passing area by a distance that is equal to or greater than 10% of a width of the passing area, wherein a luminous flux passes in the lens through the passing area. The claimed invention is therefore considered to be in condition for allowance as being novel and non-obvious over prior art.

3. The prior art taken either singly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 USC 102 or 103 would be improper. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

4. Figures 13-15 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.121(d)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

5. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because some of the drawings were drawn and referenced by hand. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Other Information/Remarks

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jack Dinh whose telephone number is (703) 605-0744. The examiner can normally be reached on M-T (8:30 AM - 6:30 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Georgia Y Epps can be reached on (703) 308-4883. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
